- ✔ Large stock holdings held locally
- ✔ Quality without the original equipment price tag

WEAR RESISTANT COMPOUND

Up to 8 inch tread pitch tracks incorporate anti-vibration design. Latest technology rubber compounds ensuring a class leading cut & chip resistant.

DURABLE WITHOUT COMPROMISE

Main cables are copper coated to provide corrosion resistance and enhance rubber bonding to the cables

SMOOTHER RUNNINGS

Smoother riding than block style tread designs due to unique tractor tyre shaped tread lugs.

BUILT TO LAST

Reduced risk of tread or guide lug delamination or tear-off. heavy duty, super heavy duty and scraper versions. More wire, increased rigidity and damage resistance.
